DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities:

Page 11, line 20, shouldn't "conversion from Cat-5 cable 206" be replaced by "coaxial data"?

The specification page 15, lines 1-5 refers to 316 and 326 as "Power managers".

However, it is not clear as to why a power manager 326 is connected to another power manager 316.

Appropriate correction is required.

Claim Objections

2. Claims 50, 54-56, 64-65, 69-70 and 84-94 are objected to because of the following informalities:

Claim 51, line 3, shouldn't "transmit" be replaced by "received" and "onto" by "from"?

Claim 54, line before the last, shouldn't "coaxial data" be replaced by "differentiated data"? Since the second transformer generates a "differentiated data".

Claim 64, line 2, shouldn't "power" be inserted before "switch"?

Claim 69, last line, shouldn't "coaxial" be replaced by "differentiated"? Since the second transformer generates a "differentiated data".

Claim 70, lines 2-3, what does it mean by "engage power lines"?

Claim 84, line 5, "as differentiated data" should be inserted after "ports" so as to provide antecedent basis for the recitation in line 7.

Note that any claim whose base claim is objected is likewise objected.

Appropriate correction is required.

3. This application is in condition for allowance except for the formal matters noted above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Response to Arguments

4. In view of the applicant's comment filed on 8/22/05, the outstanding art rejection has been withdrawn.

Allowable Subject Matter

5. Claims 18-21 and 49-94 are allowed. However, the claims must be amended if necessary to overcome any objection set forth above.
